ILHAM RAIS

Control Engineer & Software Developer

**Hi There!**
I'm an electrical engineering student from Universitas Islam Indonesia, Yogyakarta. I realy into programing as well, i used Python for Machine Learning and Deep Learning. I also know how to develop Arduino, Raspberry-Pi and PLC for IOT. My concentration in my degree is Control Engineer so i can use Matlab and Labview to make controller devices especially in Industrial system. I also like to design with Adobe Illustrator to make animation doodle.
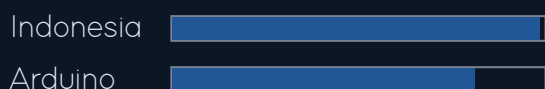

Education

Electrical Engineering, Undergraduate.
2016 - 2020
Universitas Islam Indonesia

SMAN 31 Jakarta
2013 - 2016

High Intermediate
2013 - 2016
LIA, Jakarta

Experience

2020	Intern at PT INTI (Persero), Bandung

Skill

- Python
- Arduino
- PLC
- Matlab
- Labview
- Illustrator
- Photoshop

Language

- Indonesia
- Arduino

Interest

Python Developer

Machine Learning

Artificial intelligence

Cloud Services

Design

Robotics

Event Organizer
